The organisers reserve the right to re-inspect vehicles at any time during the course of the season.

Competitors will be personally and solely responsible for ensuring that their cars comply with their registration details and with these regulations for each event at which they are entered. Failure to comply in either respect will be a breach of these regulations. Queries concerning eligibility should be referred in writing to the organisers/championship Eligibility Scrutineer at least seven days prior to an event entered, to permit a ruling in advance of any meeting at which it is intended to compete.

Tests to establish the power output of any car may be carried out by the organisers or their representatives. Such power testing will be carried out using any test equipment deemed suitable by the organisers.

The organisers may review the performance of vehicles within the championship with particular regard to newly introduced vehicles/models, after every championship round. This may result in the minimum weight being altered for any registered model.

Any weighbridge or pad scales used by the organisers at a circuit, which may include that held by the championship organisers, will be considered definitive and the weight of a car established on such a weighbridge will be a finding of fact subject to Motorsport UK regulations [E 4.1].

Version: Published Copy

A conversion factor of 0.454 kilos/pound rounded up to the nearest kilo or pound will be used. No other tolerance will be allowed.

- 5.2.3 It should be clearly understood that the regulations set out in the current Motorsport UK yearbook apply except where amended by the following texts.

It should also be understood that if it is not clearly specified that you can carry out a modification then you should work on the principle that you cannot.

- 5.2.4 The Championship Organisers will permit a limited number of vehicles which may not necessarily comply fully with all these championship regulations to compete in an Invitation Class on a split grid; only where the Organisers deem their inclusion is beneficial to the Championship, for promotional or other purpose. These cars will be eligible for trophies but will not score points and will be considered invisible for the allocation of championship points. Trophies for the Invitation Class will be awarded for 1st place only.

5.3 Safety Requirements

- 5.3.1 All Motorsport UK Appendix Section K Safety Criteria Regulations apply as the Motorsport UK Yearbook. [K 1.2.1] to [K 1.2.4] with optional bracing tubes as per Motorsport UK Yearbook drawings only and compulsory diagonal strut with upper joint on drivers side, [K 2.1.2] to [K 2.1.3], [K 3], [K 8], [K 9], [K 10], [K 13].
- 5.3.2 If fitted with a sunroof, this must be made of steel and securely fixed in the closed position by at least two additional fixings.
- 5.3.3 A full harness safety belt with a minimum of 4 straps (2 shoulders, 2 waists) must be installed to Motorsport UK Regulations. It is recommended that a 5 or 6 strap safety belt is used.

- 5.3.5 A battery cut-off master switch must be installed. The circuit breaker when operated must isolate all electrical circuits with the exception of those that operate the fire extinguishers (Motorsport UK Regulation [K 8]). The triggering system for the circuit breaker should be situated at the lower part of the windscreen mounting preferably on the driver's side or below the rear window. The location is to be identified by a RED SPARK on a WHITE EDGED BLUE Triangle and the ON and OFF positions are to be clearly marked. The preferred system recommended is the Cartek fully electronic Battery Isolator System.
- 5.3.6 For scrutineering purposes the bulkhead between the main engine bay and the area occupied by the Interior Heater and Windscreen Wiper unit will be considered as a bulkhead that must be sealed. Windscreen trim can be removed.

5.4 General Technical Requirements & Exceptions

Motorsport UK Yearbook references: [J 4], [J 5], Section Q, Section B, Nomenclature & Definitions, Section K, Section L.

- 5.4.1 Definitions: All references to standard parts and/or material in these regulations shall be interpreted as references to the manufacturer's original specification(s).
- 5.4.2 All parts must remain as Standard except for the modifications permitted listed.
- 5.4.3 Unless specifically authorised in these regulations, the use, substitution of, and/or addition of, any parts, material or processes is prohibited, other than welding or repairing material or the fitting of the manufacturers standard replacement parts, for the sole purpose in every respect of restoring the vehicle to the manufacturer's Standard specification or to comply with Motorsport UK statutory safety requirements.

5.5 Chassis: Standard

5.5.1 The following can be applied to the body shell: strengthening of the suspended part in the area of the suspension pivot locations is allowed provided that the material used follows the original shape and is in contact with it. N.B. Larger section composite reinforcement panels are not permitted.

5.5.2 Seam welding of the body shell is permitted. Only material/parts specially allowed by these regulations can be modified or removed. Removed material cannot be reused on the vehicle (see 5.8.1).

5.5.4 There must be towing eyes with minimum internal diameter of 60mm securely fixed to the main structure of the vehicle, front and rear, within the confines of the body to enable the vehicle to be moved in accordance with Motorsport UK Regulation [Q 19.1.3 (a) or (b)]. In respect of the front towing eye, this may not protrude beyond the vertical plane of the front bumper by more than 10mm. For the avoidance of doubt this precludes the use of the standard towing eye in its standard location, competitors must find an alternative.

It is strongly recommended that All Race Cars should, wherever possible, be equipped with two front and two rear towing eyes positioned equally either side of the longitudinal centre line. They should be clearly visible, marked with an arrow and the word "tow" and coloured yellow, red or orange to contrast with the vehicle colour scheme.

The towing eye must be fixed to a structural part of the chassis with a minimum of M12 fixings, the inner part must be flexible in order for the towing eye to be retracted inside the bodywork profile. A "pull-cord" must be attached to the towing eye to enable the marshals to access the wire loop.

Towing straps or wires must be in good condition and must be replaced if significant damage or wear is evident.

Examples of steel wire towing eyes that can be bolted to the chassis:

5.5.5 Bonnet and tailgate fasteners must be fitted. Original locking devices must be rendered inoperative with the exception of the front bonnet catch, which must remain operative. The actuation lever of this catch must be extended into a visible position from outside the car and painted with Day-Glo paint. Disconnected locking devices may be removed.

5.5.6 Steering lock must be rendered inoperative and may be removed from the vehicle. Cars fitted with Safety Airbag in the steering wheel must have them removed. **Caution is required over the removal of any airbag device. If in doubt contact the Eligibility Scrutineer for the correct method of removal.**

If you are in any doubt then consult the Eligibility Scrutineer. Due to part availability pistons and bearings may be substituted with OEM matching quality parts to exactly the same specification as the original Ford part.

At the first event entered the competitor must present the car to the eligibility scrutineer or nominated deputy who will cause the engine to be sealed in a manner determined by them. This action will be recorded and details kept by the championship organiser. These championship seals can only be broken in the presence of the championship scrutineer or nominated deputy, who will either check and/or re-seal the engine.
