Should the need arise to stop any race, RED LIGHTS will be switched on at the Start Line and RED FLAGS will be displayed at the Startline and at all Marshals Signalling Points around the circuit.

This is the signal for all drivers to cease circulating at racing speeds and to slow to a safe and reasonable pace. In practice cars should return slowly to the pits. In race situations they should return slowly to the start line which will automatically become a Parc Fermé area.

During race stops cars may not enter the pits unless directed to do so. Work on cars already in the pits must cease when a race is stopped.

Case A – Less than two laps completed by the race leader.

Any race stopped before the leader has completed two laps will be declared a “No Contest” and available cars will restart from their original grid positions. Competitors unable to take the restart may be replaced by reserves who will start at the back of the grid in reserve order. The length of the restarted race will be determined by the Clerk of the Course.

Case B – More than two laps completed by the race leader but less than 75% of the scheduled distance

Any race stopped after the leader has completed more than two laps but less than 75% of its duration will be considered as the first part of a two part race. Cars will be restarted from a grid set out in the finishing order, which shall be based upon the order of crossing the finish line at one lap less than at the time of first showing the Red flag. Only cars which are under their own power at the showing of the Red flag will be classified. The result will be the order of finishing at the end of the re-started race. The length of the restarted race will be determined by the Clerk of the Course.

Case C - More than 75% of race completed

Any race stopped after the leader has completed 75 % of its duration may be considered to have finished, unless the Clerk of the Course, in consultation with the Stewards of the Meeting, deems it appropriate to restart the race. If not restarted the result will be based on the order of crossing the finish line at one lap less than at the time of first showing of the Red Flag. Only cars which are under their own power at the showing of the Red Flag will be classified.

19 Incidents

- 19.1** In the event of an accident or collision occurring during a race or practice, the car or cars involved may be required to come into the pits for examination (Motorsport UK Regulation [J 3]).

20 Rejoining the Track

Drivers “going off” the circuit are reminded that all competitors should rejoin the track in a manner compatible with safety. (Motorsport UK Regulation [Q 12.21.3]).

21 Hazard Warning Sign

A Hazard Warning Sign will be displayed at flag marshal’s posts to warn of a semi-permanent hazard (i.e. parked car) present on, or adjacent to the track, which is no longer indicated by waved or stationary Yellow warning flags. The Hazard Warning Sign does not prohibit overtaking.

22 Qualification Process

The Formula Ford Festival will be run as a 'knockout' contest through qualifying Heats and last chance races, culminating in the Final. Finishing positions, not overall race times, dictate qualification through to the next round. See the Final Instructions for full details.

23 The World Cup

The World Cup is a team competition with points awarded in relation to finishing positions in the Heats, Semi-Finals and Final of the Formula Ford Festival. All drivers and entrants are reminded that nominations for the teams cannot be changed after the commencement of qualifying. The nominated drivers in each team will score World Cup points as follows in the above races: 1st – 30 points, 2nd - 29 points, 3rd – 28 points and so on. The team accruing the highest number of points will be declared the winners.

24 Practice/Qualifying

There will be timed qualifying sessions for each driver. Starting positions will be determined by qualifying times.

25 Heats and Final

After the closing date and depending on entry levels, the format of the heats for each class of the Festival will be advised in Final Instructions.

26 Grids

All races will use a staggered 1 - 1 formation.

27 Start

A standing start will be used for all races. All races will be given a green flag/warm-up lap commencing after the 30-second signal, following a minimum of a 1 minute countdown procedure. Cars will form up on the grid at the end of the green flag/warm-up lap and when they are in position to the satisfaction of the starter a 5 Second Board will be shown to indicate that the Grid is complete. The red lights will be switched on five seconds after the board is withdrawn. When the lights go off that is the signal to race. In the event that the starting lights fail, the Starter will revert to using the National Flag.

28 Prizes and Awards

Trophies will be provided by the BRSCC to the top 3 overall finishers in the Formula Ford Festival Final, the top 3 overall finishers for the Historic Final, and the over winner of each Heat, Progression Race and Semi-Final. Class trophies may also be awarded in the Historic Final. The organisers reserve the right to provide additional awards. All competitors will be notified of such awards by an Official Bulletin. Trophies will be presented at the end of each race. Garlands may also be presented to the winner at the end of each qualifying Heat, Semi Finals, Historic Final and Final.

29 Penalties

As it may prove impractical to hold a full Clerk of the Course or Stewards Inquiry, and to consider a formal appeal into penalties imposed by the Clerk of the Course for driving offences etc. in the qualifying races, the Stewards of the Meeting reserve the right to eliminate any competitor from continuing in the competition, or apply an appropriate penalty. (Motorsport UK Regulation [G 2])

30 Stop-Go Penalty

Competitors should note that the Clerk of the Course may impose a Stop-Go/Drive Through Penalty. (Motorsport UK Regulation [Q 12.26]) The penalty must be taken in the specified area in the pit lane at the foot of the Race Control Building.
