4.3 SOCIAL MEDIA

Social media, including, but not restricted to, facebook, Instagram, Twitter etc. is a powerful and wide reaching medium for the expression of views and opinions, and the sharing of photographs and video. If a competitor is considered to have brought the Championship and the BRSCC into disrepute in the opinion of the Championship Stewards they may be subject to a penalty or disqualification from the Championship. Additionally, competitors are reminded that the Motorsport UK monitor social media and any remarks that are deemed to bring the sport into disrepute can lead to penalties.

5. TECHNICAL REGULATIONS

5.1 INTRODUCTION

The following Technical Regulations are set out in accordance with the Motorsport UK specified format and IT SHOULD BE CLEARLY UNDERSTOOD that if the following texts do not clearly specify that you can do something, then it is your own responsibility to seek clarification from the Championship Organisers in advance of making modifications or changes to your car.

Where a technical issue is disputed, the decision of the Championship Organisers shall be final. This includes their acceptance or otherwise to allow participation in the Championship races, or assessment of suitability, and of allocation to specific classes.

Acceptance of entry into either the race or a specific class will be at the sole discretion of the Championship Organisers.

To ensure the fairest and most competitive racing, the Championship Organisers reserve the right to amend any Championship regulation as they believe appropriate, and at any time.

Should a competitor be concerned that their car, or any part fitted to their car may not fully comply with any specific technical regulation, it is the responsibility of the competitor to contact the Championship Organisers to discuss these concerns prior to placing a race entry.

5.2 GENERAL DESCRIPTION

The BRSCC SuperSport Endurance Cup is a Championship open to competitors participating in closed wheel two wheel drive petrol powered production based cars. The Championship Organisers dictate that “production based” means vehicles based on cars with a proven history of being made available for public sale, and which were originally designed for general road use.

Subject to meeting all technical regulations, Caterham cars are permitted to enter.

The driver’s seat must be positioned entirely to one side of the longitudinal centre line of the car.

The following vehicles are not permitted to participate in the championship:

Sports prototype cars, cars fitted with engines of less than 4 cylinders, cars fitted with motorcycle-based engines, open wheeled cars, custom-built one-off cars, low volume kit cars, cars featuring any kind of four-wheel drive system, vehicles originally designed for commercial usage such as vans or pick-ups, TCR cars or spaceframe cars such as Ginettas.

This is not an exhaustive list, and the Championship Organisers reserve the right to refuse an entry to any vehicle.

To ensure fair competition the Championship Organisers reserve the right to classify any car into whichever Class they believe fair. The Championship Organiser’s decision will be final.

5.2.1 Class Structure

Based on BHP per Tonne. BHP figures will be calculated at the flywheel, and weight calculated by weighing the whole car including all consumables, post-session fluids, and ballast (and without the driver). It should be noted that vehicle weights will be checked under post session parc fermé conditions.

Pro-A Cars with a power to weight ratio of between 311 – 350bhp/tonne.

Pro-B Cars with a power to weight ratio of between 271 – 310bhp/tonne.

Pro-C Cars with a power to weight ratio of between 231 – 270bhp/tonne.

Clubman-A Cars with a power to weight ratio of between 191 – 230bhp/tonne.

Clubman-B Cars with a power to weight ratio of between 151 – 190bhp/ tonne.

Clubman-C Cars with a power to weight ratio of up to 150bhp/tonne.

5.2.2 To allow the Championship Organisers to allocate each car into the correct class, competitors must declare their cars' bhp/tonne (in accordance with 5.2.1) at the time of registration for the championship.

Should any car subsequently be modified in any way that might affect the competitor's original bhp/tonne declaration, it is the competitor's responsibility to inform the Championship Organisers of this prior to starting any race.

A mobile dyno service provider as chosen by the Championship Organisers may be in attendance at Championship race meetings. To ensure compliance with the Championship Class structures, the Championship Organisers reserve the right to instruct any competitor to present their car to the dyno provider for power testing at any time throughout a race meeting. From the moment of this instruction being given to a competitor, their car will be considered to be under parc ferme conditions, and no alterations or changes to the vehicle will be permitted without the authorisation of the Championship eligibility scrutineer.

Failure to comply with the Championship Organisers instruction to present a car for power testing through any race meeting (whether before or after qualifying or the race), will result in disqualification from the official results for that event.

The car owner / competitor / operator is fully responsible for presenting it to the dyno provider with all fluid levels checked and correct, and all mechanical aspects of the car in a suitable condition to allow it to be safely tested (multiple times if required). Cars will be tested in accordance with the dyno provider's normal processes. Should any owner / competitor / operator have any concerns about either their cars' ability to complete a test, or the manner in which it is / has been tested, they must raise these concerns immediately with the dyno provider's staff and the Championship Organisers. Neither the dyno provider nor the Championship Organisers will accept any liability for any mechanical failure or breakage that may occur through power testing or at any time afterwards.

5.2.3 Examination of Vehicles

The Championship Organisers (in addition to any other powers they may have under these Regulations) reserve the right, before or after any race in the Championship to designate any one or more of the competing cars for special eligibility scrutineering. Upon such election being made the competitor shall immediately place the car under the control of the Championship Organisers and be deemed to have

permitted all such scrutineering, examination and testing as the Championship Organisers may responsibly require to undertake.

- 5.2.4 The Championship Organisers reserve the right to re-inspect any car at any time during the course of the season.
- 5.2.5 Competitors will be personally and solely responsible for ensuring that their cars comply with their registration details, bhp/tonne declaration, and with the technical regulations for each event at which they are entered. Failure to comply in any respect will be a breach of these regulations.
- 5.2.6 The Championship Organisers reserve the right to instruct that any competitor (at their own cost) take their car to an independent dyno facility for power testing at any point within the championship season. The dyno facility will be chosen by the organisers, with the geographical location being agreed between the organisers and the competitor. Failure to comply with this process or failure to provide full details of the required power testing results ahead of the subsequent event entered will render the car as non-compliant with Championship Regulations and future entries may be refused.
