

Fiesta ST150 Challenge teams and drivers,

As part of the process of equalising car performance throughout the grid, a mandatory ST150 Challenge ECU map has been created, and this must be installed in all cars ahead of the first race that the car is taking part.

The mandatory map can be installed by either of the below companies.

Autograph Tuning

Unit 5, Holt Business Park,

Burnley,

BB10 2TN

Email: autographtuning@live.com

Tel: 01772 812843

Finsport Ltd

Unit 2, Old Railway Yard,

62 Station Rd,

Digby,

Lincoln

LN4 3NF

Email: sales@finsport.co.uk

Tel: 01522 689154

Cost for the new map to be installed by either supplier at their premises is £200 plus Vat per car. Please call them directly to arrange an appointment.

If you'd like to have your car dyno-tested whilst having the map installed, this will be at additional cost (please request this service when contacting either outlet)

Additional Option

Should you be unable to physically take your car to one of the above providers, you can remove your ECU, your dash/clock cluster and your ignition key and send them securely packaged and by tracked courier to **Tensport Performance, Unit 16, Time Technology Park, Blackburn Rd, Simonstone, Burnley BB12 7TW**

Tensport will then temporarily install your ECU / Dash cluster / Key into one of their own cars, which will allow Autograph Tuning to install the new map through the OBD port.

Your ECU / Dash cluster and Key will then be posted back to you by tracked courier.

If taking advantage of the above process there will be an additional fee of £40 plus VAT payable to Autograph Tuning (to cover additional costs and return postage). Total fee payable is therefore £288 inclusive of VAT.

Instructions

- Call Tensport Performance on 07840 003760 to let them know you intend to send them your parts.
- Remove and securely wrap and box your ECU, Dash cluster and ignition key.
- Include your name, contact number, email address and full return address inside your package.
- Send your package by tracked courier to Tensport Performance.
- Once the map has been installed, you will receive a call from Autograph Tuning to request payment ahead of your parts being returned to you.

PLEASE NOTE: Due to the age and past usage of ECU's, neither Autograph Tuning or Tensport Performance will accept ANY responsibility for damage or failure of any part.
