### 1.6 SCORING

- 1.6.1 The Championship consists of seven Qualifying sessions and 20 Rounds/Races. Classification towards the title in each class is calculated from the points awarded to registered drivers (1.4) listed as classified finishers in the final results as follows:

#### Qualifying:

| 1 <sup>st</sup> | 2 <sup>nd</sup> | 3 <sup>rd</sup> | 4 <sup>th</sup> | 5 <sup>th</sup> | 6 <sup>th</sup> |
|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|
| 6 points        | 5 points        | 4 points        | 3 points        | 2 points        | 1 point         |

If, due to unforeseen circumstances, it is not possible to hold an Official Qualifying session, the grid for those rounds will be formed as per the grid from the corresponding round at the previous meeting, any drivers who were not in attendance at the previous meeting will be placed at the back of the grid in order in which they entered the event. If it is the first event of the season, the grid will be formed by

drawing lots. In such cases, drivers/teams will be notified by way of a bulletin and no Qualifying points will be awarded.

In the event of any penalties being applied to drivers after the qualifying session (including but not limited to grid place penalties carried over from previous events or via post session scrutineering), points will be awarded to drivers in the top six positions after all penalties have been applied.

**1.6.1.1** The Points scored from Qualifying sessions that take place during the 2024 season cannot be counted towards dropped scores. All points scored from Qualifying sessions are exempt from being counted as a dropped score.

1.6.2 Where the race distance has been reduced (2.6) it shall count as a full point scoring round.

1.6.3 In order to score points, collect trophies and awards in any award category, all cars and drivers competing in the championship will be required to display and wear the decals and badges specified by the organisers in the nominated positions (see 5.22.3).

1.6.4 The totals from all qualifying rounds held (excluding any races that are abandoned and which are not replaced) less the two lowest scores, will determine the final championship points and positions, unless subject to the application of any Motorsport UK Regulation [C 3.5] penalties.

Competitors cannot drop scores from any of the races held at the final meeting.

If organisers are forced to cancel any events, subject to consultation with the Championship Stewards and approval by Motorsport UK, the number of dropped scores may be amended. Details will be confirmed via an official bulletin.

Drivers disqualified from results for sporting or technical infringements cannot use that (those) round(s) as discarded rounds for the purpose of the overall championship placing. Dropped scores must include any points related to the dropped rounds including fastest lap .

- c. if the number of second places is the same, the holder of the greatest number of third places and so on until a winner emerges.

1.6.5 Team Championship: The Team Championship is a classification independent from the driver classification and applies only to Registered Teams / Entrants conforming with Article 1.3.1 of these Championship Regulations. At the start of the season each Team must submit to the Championship

Coordinator their **two** nominated **drivers** to score points for the Team classification. Any car entered in accordance with Article 1.4.10 is not eligible to score these points.

1.6.6 Any changes to these nominations during the Championship must be made in writing to the Championship Coordinator by the Entrant / Team. This must be received 48 hours prior to first official sessions of the weekend where the change is to occur. The Championship Coordinator reserves the right in its entire discretion to accept or decline or cancel the nomination of a nominated vehicle(s).

1.6.7 Points will be allocated to the top two scoring **drivers** from each Team at each round using the points system described in section 1.6.2 and 1.6.3. To qualify for the Team award, Teams must be licensed as per D7.1.12 of the 2024 Motorsport UK Yearbook.

2.1.1 Competitors are responsible for submitting correct and complete entry forms with the correct fees prior to the entry closing date, which shall be one month before every round. Entries may either be submitted by drivers on a race-by-race basis, or pre-season in a one-off full year entry payment. Any entries or payments received after the event deadline will be subject to a 20% late payment charge increase.

2.1.2 Incorrect or incomplete entries (including driver to be nominated entries) are to be held in abeyance until they are complete and correct and the date of receipt for acceptance of entry purposes shall be the date on which the Meeting Organiser receives the missing or corrected information or fee. Changes to these entry details are permitted during the year provided they are not at variance with these regulations. It is the competitor's responsibility to notify the Championship Organisers of any changes before the closing date for each round.

In accordance with 2.1, entries will be accepted in the strict order that completed entries are received, with first priority going to drivers who have submitted a Full Year Entry.

2.1.3 Any withdrawal of Entry or Driver/Car changes made after the acceptance of any entry must be notified to the Co-ordinator in writing. D25.1.12 applies.

2.1.4 Event entry fees are:

In the event of any rounds being oversubscribed The Organisers may permit 20% more entries than specified on the Track Licence for each circuit who will be allowed to qualify for that race as Reserves. These Reserve Drivers who do not qualify for a race will be placed onto the Reserve List for that race in the order that their completed entries were received (the Reserve Number order). Reserves will be listed in the Final List of Entries published with Final Instructions or in a Bulletin.

#### 2.1.6 Refunds

NO REFUNDS will be offered against Full Year Entries, regardless of circumstance. Drivers who select the Full Year Entry will be required to sign a specific section of their entry form to confirm their full acceptance of this condition.

Race Entry fees will not be refunded to competitors and reserves. However, if any rounds are cancelled, competitors who have paid will be eligible for a refund/credit of applicable value.

- 2.1.7 Entry fees may be refunded to Reserves who have signed on for the meeting on the following basis:
1. £150 refund for Reserves who are permitted to start the qualifying session only.
  2. £75 refund for Reserves who are permitted to start the qualifying session and permitted one race start.

- 2.1.9 Where a Reserve would be permitted to start any qualifying session or either race but is unable to for their own reasons, these refunds will not apply. For example, in the situation that a Reserve suffers an irreparable car problem in a qualifying session, but grid space is available for both races, no refund will be made.

## 2.2 BRIEFINGS

- 2.2.1 Organisers will notify competitors of the times and locations for briefings in the Final Instructions for each meeting, whether held at the event or online. All drivers must attend.
- 2.2.2 There will be a maximum of £205 fine and loss of 3 championship point (even if this results in minus score) for any driver who fails to attend the mandatory drivers' briefing without giving prior notice.

## 2.3 QUALIFICATION PRACTICE

- 2.3.1 At each meeting, a single Qualifying session of **20 minutes** will be scheduled.

**Provided all drivers have completed a minimum of 3 laps**, should the session be disrupted, the Clerk of the Course shall not be obliged to resume or re-run the session. The decision of the Clerk of the Course shall be final.

Any driver deemed to have caused a stoppage will have their fastest lap time cancelled and shall not take further part in that Official Qualifying session(s).

If, in the opinion of the Clerk of the Course, a stoppage during Qualifying is caused deliberately, or by driving in a manner not compatible with general safety by any driver and/or entrant, then the driver(s) concerned may have all their times from that session cancelled.

- 2.3.2 Each driver should complete a minimum of 3 laps in the car to be raced and in the correct session in order to qualify. Motorsport UK regulation (Q12.4).

With the approval of the Clerk of the Course and Stewards, in certain circumstances it may not be necessary to complete three laps of Official Qualifying to qualify for the Races, without the addition of a

time delay, provided a competitor has satisfactorily completed 3 laps at that circuit in a similar car within the previous 12 months.

For the avoidance of doubt, a driver who takes part in a Qualifying session and has been disqualified from the results of Qualifying should take a grid position at the back of the grid but ahead of a driver who does not take part in that session.

Excessive weaving to warm-up tyres using more than 50% of the track width and falling back or stopping in order to accelerate and practice starts, is prohibited.

- 2.3.3 Grid positions for Race 1 will be determined from the fastest lap recorded by drivers during the official qualifying session.

The grid positions for Race 2 will be derived from the order of the classified finishers list of Race 1. The first 10 finishers in Race 1 will be reversed to form the grid of Race 2, with the rest of the field starting in their Race 1 finishing position. Therefore, the winner of Race 1 will start in 10th position on the grid for Race 2. Retirements will be placed at the back of the grid in reverse order of retirement.

In the case of a third race, grid positions will be determined from the second fastest lap recorded by that driver during the official qualifying session.

Retirements will be placed at the back of the grid in reverse order of retirement.

Once the grids have been established, grid position penalties (if any) will be applied to the drivers in question in the order in which the offences were committed, engine/car replacement penalties will be applied as of the start of the meeting.

- 2.3.4 The starting grid for each race will be formed by competitors in order of their qualification in accordance with Sporting Regulation 2.3.3 up to the maximum number of starters permitted by the Motorsport UK Track Licence for that venue. All Reserves will replace withdrawn or retired entries in Reserve number order in accordance with 2.1.5.

- 2.3.5 Grid order for drivers qualifying out of session will follow Motorsport UK regulation (Q 12.4).

Qualified reserves shall enjoy precedence over competitors who practice out of session or whose practice times have been disallowed for whatever reason.

- 2.3.6 Should two or more drivers set identical times, priority will be given to the driver who set it at the earliest point in the official qualifying session.

- 2.3.7 If, due to unforeseen circumstances, it is not possible to hold an Official Qualifying session, the grid for those rounds will be formed as per the grid from the corresponding round at the previous meeting, any drivers who were not in attendance at the previous meeting will be placed at the back of the grid in order in which they entered the event. If it is the first event of the season, the grid will be formed by drawing lots. In such cases, drivers/teams will be notified by way of a bulletin and no Qualifying points will be awarded.

- 2.3.8 Any competitor who withdraws from a race must inform the Clerk of the Course at the earliest opportunity and, in any event, no later than 30-minutes before the start of the race. If one or more cars are withdrawn the grid may be closed up accordingly if sufficient time is allowed to do so. Withdrawn competitors will be replaced by reserves in accordance with the Regulations.

2.3.9 If mechanical means are used by the marshals to remove the car to a safe position, the car concerned cannot re-join the session. Where deemed necessary, the Clerk of the Course may at their sole discretion allow a car to re-join the session but any future laps it completes in that session will not be timed or will be disallowed.

2.3.10 At the end of each session, all drivers must cross the Finish Line only once.

## 2.4 RACES

2.4.1 All races are scheduled to run for a duration of **20-minutes**.

2.4.2 Should any race distance be disrupted the Clerk of the Course shall not be obliged to resume or re-run the race (Q12.16) (1.6.4 above applies), it shall still count as a full points scoring round.

2.4.3 If mechanical means are used by the marshals to remove the car to a safe position, the car concerned cannot re-join the session.

2.4.4 At the end of each session, all drivers must cross the Finish Line only once.

## 2.5 STARTS

2.5.1 The Pit Lane will open by signal of a waved green flag and an audible signal. It will remain open for a period of 3 minutes, whereupon drivers must exit the Pit Lane and go straight to their grid positions. In the event of working from the paddock, cars will be released to form up on the grid prior to the start in formation as specified on the grid sheet. In certain circumstances after leaving the assembly area, the formation lap may be the Green Flag lap, this will be confirmed at a drivers' briefing.

2.5.2 All race start countdowns are to have a minimum elapsed period of 3 minutes from the time all cars are released to form up the grid to the start of the Green Flag lap(s).

2.5.3 Grids will be staggered in a 1x1 format. Races will commence with a standing start.

2.5.4 Start Procedure:

The minimum countdown procedures/audible warning sequence shall be:

- A. Audible warning and 3-minute board shown at Start Line
- B. Audible warning and 2-minute board shown at Start Line.
- C. Audible warning and 1-minute board shown at Start Line. Clear the Grid/Grid Closed/Start engines.

**All work on cars must be complete by this time. Any car being worked on after the showing of the 1-minute board will result in the competitor being given a 10 second penalty.**

- D. Audible warning and 30-second board shown on Start Line.
- E. Start of Green Flag Lap.
- F. Following the Green Flag Lap, a five-second board will be used to indicate that the grid is complete.

G. The red lights will be switched on five seconds after the board is withdrawn

H. The race will start when the red lights go out. In the event of any starting lights failure, the Starter will revert to the use of the National flag

2.5.5 Any car removed from the grid after the 1-minute stage or driven into the pits on the Green Flag lap, shall be held in the pitlane and **will** start the race after the last car has passed the pitlane exit **under instruction of the marshal and green light**.

2.5.6 Any driver unable to start the Green Flag/Pace lap or start are required to indicate their situation as per Motorsport UK Regulation (Q12.11.2). In addition, any driver unable to maintain grid positions on the Green Flag to the extent that all other cars are ahead of them may complete the Green Flag Lap but **MUST** remain at the rear of the last row of the grid but ahead of any cars that have been allocated a 10-second delayed start.

2.5.7 The Championship Organisers may at their discretion and with the approval of the Stewards, select to use a rolling start for one or more races in accordance with Motorsport UK Blue Book regulations. This will be notified by official bulletin prior to the event.

2.5.8 Harsh acceleration or deceleration, as judged by Officials, is not permitted when approaching or manoeuvring within a populated grid. For the avoidance of doubt, harsh acceleration includes the spinning of wheels. Failure to comply with this regulation will be treated in the same way as failure to comply with the pit lane speed limit during Races.

2.5.9 Competitors and team personnel are not permitted to alter the condition of the track surface other than within their designated Pit Area except for the removal of loose impediments by hand, such as rubber, stones, etc.

2.5.10 Only easily portable handheld equipment is permitted on the grid. It is not permitted to take tyre trolleys on the grid. Competitors must remove any equipment from the grid when directed to do so by a marshal or Championship official.

2.5.11 The start procedure and/or countdown procedure may be varied to accommodate commercial demands and competitors will be informed of the changes at the Drivers Briefing and/or through the issuing of a Bulletin and/or via the timing screens where possible.

2.5.12 At selected events the organisers reserve the right to schedule a 'Grid Walk' session which will take place directly before the green flag lap. Specific details around the format and regulations for this will be release by bulletin before the events.

## 2.6 **SESSION RED FLAG**

2.6.1 Should the need arise to stop any **qualifying session or** race, RED LIGHTS will be switched on at the Start Line and RED FLAGS will be displayed at the start line and at all Marshals Signalling Points around the circuit.

This is the signal for all drivers to cease circulating at racing speeds, to slow to a safe and reasonable pace and to return to the pit lane during a qualifying session, or return to the starting grid area during a race, which will automatically become a Parc Fermé area. As per Motorsport UK General Regulation

Q12.15.6, In the interval between stopping and restarting the cars may return to the pit area for repairs. They may not return to the grid but may join from the pit lane after all the other cars have started the green flag lap. Non-runners at the time of stopping must return to the pit lane and may restart from the pit lane behind those referred to above if approved to do so by the Licenced Eligibility Scrutineer. No work may be carried out on the grid unless on grounds of safety and with the approval of the licenced Eligibility Scrutineer.

#### 2.6.2 **Case A – Less than two race laps completed by the race leader.**

The race will be declared a “No Contest” and available competitors will restart from their original grid positions. Competitors unable to take the restart may be replaced by reserves who will start from the back of the grid in reserve order. Gaps on the grid should not be closed up. The Clerk of the Course may order that the duration of the re-run of any race shall be a shorter distance than originally scheduled or may be abandoned altogether. The duration of the re-run will be determined as the duration of the race.

#### 2.6.3 **Case B – More than two race laps completed by the race leader but less than 75% of the scheduled duration.**

Any race stopped after the leader has completed more than two laps but less than 75% of its duration will be considered as the first part of the race. Competitors will be restarted from a grid set out in the finishing order of this first part, which shall be based upon the order of crossing the finish line at one lap less than the number of laps completed by the leader at the time of first showing the Red Flag. Only vehicles which are proceeding under their own power, in accordance with NCR Q.12.24.3(j) at the showing of the Red Flag will be classified in this first part (NCR Q.12.15.3, Q.12.15.6 and Q.12.16 also apply). The result of the race will be the finishing order at the end of the restarted race (see NCR Q.12.15.4).

#### 2.6.4 **Case C - More than 75% of race completed**

If the leader has completed more than 75% of the race distance or duration it shall not be restarted and the Results will be declared in accordance with NCR Q 12.15.5, unless the Clerk of the Course, in consultation with the Stewards deem it appropriate to restart the race.

The inner lane is the only area where any work can be carried out on a car within the Pit Lane. No equipment may be left in the fast lane.

If a driver overshoots their Pit before stopping, the car may only be pushed back to the Pit when it is safe to do without impeding any other competitor. **Reverse gear may not be used in the Pit Lane at any time.**

2.7.2.1 Teams are allowed five working team members to cross the white line outside of the garage to operate in the pitlane during Qualifying, Race One, Race Two and Race Three.

- 3.4.2 It is prohibited to work on any vehicle after the chequered flag has been shown. This includes tyre pressure checking, wheel changes or changes of driver unless authorised by the Eligibility Scrutineer or their deputy, with the exception that, under the supervision of the marshals, electronic devices may be connected to the cars for the sole purpose of reading data. Such connecting systems must be located on the exterior bodywork of the car.
- 3.4.3 Any vehicle in the pit lane must be immediately taken to the designated Parc Fermé area. No team personnel may enter Parc Fermé unless authorised by the Eligibility Scrutineer or their Deputy.
- 3.4.4 No tools of any type may be passed by team members or mechanics to drivers whilst in Parc Fermé unless authorised by the Eligibility Scrutineer or their deputy.
- 3.4.5 Only those officials responsible for supervision may enter the Parc Fermé. No intervention of any kind is allowed there unless authorised by such officials. Competitors are reminded that the area designated as Parc Fermé area is a secure area and it is not permitted for any supporters to be in Parc Fermé unless at the behest of the Eligibility Scrutineer or their deputy.

### **3.5 SIGNALLING AND COMMUNICATION**

- 3.5.1 No signal of any kind may pass between a moving car and anyone connected with the car's entrant or driver save for the following:
- a. Legible messages on a Pit board.
  - b. Body movement by the driver.
  - c. Lap trigger signals from the pits to the car. Lap marker transmitters shall be battery-powered and once operating must be free-standing (i.e. not connected to any other Pit equipment by means of wires or optical fibres) and be incapable of receiving external information. Such lap triggers shall use a transmitter operating with a carrier frequency above 10Ghz (radio or optical) and a beam half angle of no more than 36° when measured at the 3dB point, and shall not be used for the transmission of any data from the pit to the car other than the lap mark. Lap mark data must be transmitted repeatedly and must be demonstrably consistent.

d. A single burst of timing data from the car to the pits as the car passes the receiver. All timing beacons and receivers must be a minimum of 10m from any official timing beam.

3.5.2 Mobile phone or tablet devices are prohibited from being carried in the competing vehicle whilst on the circuit (11.3.1).

3.5.3 Competitors are permitted to carry an on-board system that will allow the organisers to send instructions, warnings and timing data. Only devices which receive data under the direct control of the Clerk of Course or Chief Timekeeper may be used (11.3 (iv)).

### 3.6 RADIOS

3.6.1 With reference to 3.4 above, pit to car radio systems may not be fitted on competing cars at any rounds (Motorsport UK Q 11.3). The use of public communication networks for this purpose is not permitted.

3.6.2 Any radio system used by a team must always comply with the terms and conditions specified from time to time by Ofcom or other official bodies (e.g. an airport authority) for the use of their radio frequency. If a frequency used by a team interferes with a frequency used by a local service or the Organisers then the team may be required to change their radio frequency to a non-conflicting frequency to the satisfaction of the Series Coordinator and in accordance with the requirements of Ofcom (11.3 (v)).

### 3.7 TIMETABLE

The time schedule and the programme for all sessions will be published separately for each event. The Clerk of the Course in consultation with the Stewards has the authority to amend the Event format and timetable at any time.

### 3.8 TESTING

Any registered Entrant / Driver / Team will not be able to test in a TCR car at a venue within 21 days prior to that venue hosting an event in the 2024 calendar (Article 1.5).

Permission may be granted to compete/test in another vehicle which must be authorised by the Championship Organisers in advance. Requests for such permission must be submitted to the Organisers in writing no later than 10 days prior to the date in which the permission is being sought.

Participation in Official Friday Test Days will be permitted, prior to all events within the 2024 TCR UK Touring Car Championship calendar will be communicated by the Championship Organisers.

### 3.9 MESSAGING

Official messaging will be carried out via the TCR UK WhatsApp group. Integration of the WSC TCR App may take place during the season. This will be communicated to competitors/entrants by a championship bulletin. Motorsport UK messaging and social media protocols and policies apply.

Messages to the Clerk of the Course or Race Control should be carried out via email (except when invited to do otherwise). Details will be provided in pre-event driver's briefing notes.

#### **4. SPECIFIC CHAMPIONSHIP PENALTIES**

In accordance with Section C of the current Motorsport UK Yearbook and these regulations.

##### **4.1 INFRINGEMENTS OF TECHNICAL REGULATIONS**

###### **4.1.1 Arising from post practice Scrutineering or Judicial Action**

Minimum Penalty: The provisions of Motorsport UK Regulation [C3.3].

###### **4.1.2 Arising from post-race Scrutineering or Judicial Action**

Minimum Penalty: The provisions of Motorsport UK Regulations [C 3.5.1 (a) & (b)].

For infringements deemed to be of a more serious nature the Clerk of the Course and/or Stewards of the Meeting are to invoke the provisions of Regulation [C 3.5.1 (c)].

##### **4.2 INCIDENT**

An 'Incident' means any occurrence or series of occurrences involving one or more drivers during Practice, Qualifying and/or Race, or any action by any driver (Motorsport UK Regulations Q.12.21), which is reported to Clerk of the Course and which:

- a. caused a false start by one or more cars (Motorsport UK Regulation Q.12.13)
- b. caused a collision
- c. forced a driver off the track
- d. illegitimately prevented a legitimate overtaking manoeuvre by a driver
- e. illegitimately impeded another driver during overtaking
- f. exceeded track limits
- g. failing to re-join the track in a safe manner
- h. driving unnecessarily slowly
- i. any other incident deemed to be reckless, dangerous or unsporting

Unless in the opinion of the Clerk of the Course it was completely clear that a driver was in breach of any of the above, any Incidents involving more than one car will normally be investigated after the session/race.

It shall be at the discretion of the Clerk of the Course to decide if a driver or drivers involved in an Incident shall be penalised.

If an Incident is under investigation by the Clerk of the Course, a message informing all Teams which driver or drivers are involved may be displayed on the timing monitors (if the facilities on the circuit so permit).

If a driver is involved in a collision or Incident and/or has been informed of this by the Clerk of the Course, they must not leave the circuit without the consent of the Clerk of the Course (Motorsport UK Regulation H.32.1.6).

### 4.3 ADDITIONAL SPECIFIC CHAMPIONSHIP PENALTIES

#### 4.3.1 Deleted.

4.3.2 Stop-go and drive-through penalties may be issued at the discretion of the Clerk of the Course in accordance with Motorsport UK Regulation Q 12.26.

4.3.3 For offences under Motorsport UK Regulations [C1.1.5], [C1.1.6], [Q12.21.2], [Q12.21.4] and [Q12.21.5], the Clerk of the Course, at their discretion, may impose a championship penalty in the form of the following:

- a. For an offence in qualifying; a grid penalty of up to ten places.
- b. For an offence in a race; a time penalty in accordance with Section C2.3 of the current Yearbook. At the discretion of the Clerk of the Course, this penalty can be issued without the associated licence point penalty.
- c. For an offence in a race where the offending driver is not classified; a grid position penalty in the next race/event.

4.3.4 Where a championship penalty has previously been applied, the severity will be increased. Any driver found guilty of a driving offence which generates penalty points under Motorsport UK Regulation C2.1.5 will also have championship points deducted proportional with the severity of penalty imposed. Any deduction of championship points will be three times that of the associated licence penalty points. i.e., formal written reprimand 6 Championship points deducted, fine or time penalty 9 Championship points deducted, exclusion from practice, qualifying or race 12 Championship points deducted, exclusion from meeting 18 Championship points deducted.

4.3.5 In order to maintain standards of conduct, the Championship Co-ordinator will monitor all Officials/Observers reports of adverse behaviour at race meetings. If any individual is included on two such reports during one racing season they will receive written warning from the Championship Co-ordinator that their driving/behaviour is to be specifically observed at future race meetings. Any adverse reports during this period of observation could result in official Motorsport UK action and will result in a Championship Stewards' enquiry, with possible loss of Championship points and refusal of further race entries.

### 4.4 SOCIAL MEDIA

Social media, including, but not restricted to, Facebook, Instagram, Twitter etc. is a powerful and wide-reaching medium for the expression of views and opinions and the sharing of photographs and videos. As such, competitors should be aware that their conduct on social media regarding the Championship, the BRSCC and its competitors and teams should reflect the impact social media has.

In the opinion of the organisers, if a competitor is considered to have brought the Championship and/or the BRSCC into disrepute, the matter will be referred to Championship Stewards who will decide on the appropriate action which may result in a penalty being applied or disqualification from the championship. The case may also be referred to Motorsport UK and the National Court for further judicial action.

Additionally, competitors are reminded that Motorsport UK monitor social media and any remarks that are deemed to bring the sport into disrepute can lead to penalties.

Away from social media, unsporting and aggressive behaviour will not be tolerated. If the driver, their team or those associated with them are deemed to have acted in this way, in the opinion of the organisers, they will be subject to a penalty or disqualification from the championship.

## 5. TECHNICAL REGULATIONS

### 5.1 INTRODUCTION

- 5.1.1 **The TCR Technical Regulations issued by WSC are included within these Championship Regulations (Appendix A). These must be followed complicitly, unless an exception is listed in the following Championship Technical Regulations.**

The TCR UK Championship is for TCR cars that have been specifically designed and built and are recognised as TCR cars by WSC. The only adjustments permitted to these cars are those detailed within these Technical Regulations

- 5.1.2 The models accepted are listed on the official TCR website. The list may be amended at any time by the TCR Technical department. Competitors will need to register for access.
- 5.1.3 Please refer to Section 3 'Specific Championship Regulations' for further information regarding scrutineering and technical checks.

### 5.2 GENERAL DESCRIPTION

- 5.2.1 All competitors, team members and persons associated with Championship agree to be bound by the Technical Regulations including any amendments, variations or statements relating thereto. Only Technical Bulletins, clarifications or directives issued by the Championship Organisers and WSC will be effective.
- 5.2.2 In addition to the TCR Technical Regulations issued by WSC, all vehicles must comply with Motorsport UK General Technical Regulations contained within Sections Section J & Section Q of the Motorsport UK Yearbook.
- 5.2.3 If in the light of experience, when safety related changes to these regulations are necessary, competitors will be given at least 10-days notice to effect modifications.
- 5.2.4 No components can be modified, substituted, relocated or changed in any way, except those specified within the Technical Regulations. **Maximum Motorsport are permitted to be the only spares distributor at circuit at all 7 TCR UK events in 2024, unless specific permission has been granted by Maximum Motorsport. For further clarity, please contact Jack on [jack@maximumgroup.net](mailto:jack@maximumgroup.net).**

**Any driver or team personnel associated with a driver, who is found to be retailing TCR parts during a race weekend, without the permission from the Championship Promotor, may incur a loss of championship points. Even if this results in a driver receiving a minus amount.**

In certain cases and only with the written approval of the Championship Eligibility Scrutineer, some non-homologated components may be used. When replaced, the homologated part must be fitted.

- 5.2.5 It should be clearly understood that if the text contained herein does not specifically permit modifications, of whatever nature, to the original car, competitors must work on the principle that modifications to the TCR model are NOT permitted.
- 5.2.6 All vehicles invited to compete will be issued with a Technical Registration Form that must be completed prior to the first power test. The information contained will be used to compile the Logbook that will be held by the Championship Co-ordinator and / or Scrutineer.

- 5.2.7 Competitors must ensure their cars comply with the conditions of eligibility and safety throughout the events.
- 5.2.8 The declaration and presentation of a car for scrutineering will be deemed an implicit statement of conformity.
- 5.2.9 TCR Technical forms, compulsory to take part in any TCR Competitions, are issued by WSC Ltd. In accordance with TCR Technical Regulations WSC Ltd may issue Temporary TCR Technical Form in case of new models. WSC is the only authority able to replace a Temporary Technical form with a TCR Technical

### **5.3 SAFETY REQUIREMENTS**

- 5.3.1 All cars must conform to the general and competition regulations of the Motorsport UK Yearbook, which define minimum safety requirements for racing purposes. All cars must conform to these regulations before they can be accepted for either racing or official practice. Competitors should refer to the Motorsport UK General Regulations sections J5, Q and K.
- 5.3.2 It is generally accepted that in order to ensure the safety and security of a car, it must be kept clean and in good condition so that faults can be easily spotted and identified. Likewise, the components of the car should be race-worthy to the best possible degree and fitted securely. Therefore, it is a requirement of entering the Championship that competitors will ensure their cars are properly prepared, well presented and clean prior to practice, qualifying and the races.
- 5.3.3 The Scrutineers reserve the right to refuse to scrutineer a car if it is presented in a sub-standard condition. Furthermore, the Clerk of the Course reserves the right, on the Eligibility Scrutineer's advice, to prevent a car from taking part in qualifying or races, should the presentation not be up to standard.

### **5.4 ENGINES**

- 5.4.1 Competitors are limited to one engine per season without incurring a penalty.
- 5.4.2 The engine is associated with the driver's race number. It will follow the driver if they change cars, unless the new car is of a different model, in which case the change of engine penalty applies see 5.4.9.
- 5.4.3 If a driver is absent from one or more Events that engine will be associated with the TCR Technical Form of the car.
- 5.4.4 In case of a car model competing with a TCR Temporary Technical Form, an additional change of engine may be allowed solely at the discretion of the Series Organisers after a detailed report is submitted by the Eligibility Scrutineer.
- 5.4.5 An engine will be considered as having been used once the car has left the pitlane in any official Championship session.
- 5.4.6 Each engine must be sealed by the Eligibility Scrutineer before being used by the competitor for the first time. It will be sealed in a way that prevents the dismantling of the cylinder head and oil sump.
- 5.4.7 Removal of any seal must be approved beforehand by the Eligibility Scrutineer.

Any seal breaking without prior approval/authorisation will be penalised which may go as far as disqualification.

The breaking of any seal without prior approval/authorisation will be considered as a change of engine.

5.4.8 The replacing of an engine by a competitor must be requested in writing to the TCR Licenced Eligibility Scrutineer by using the official Engine Change Form.

5.4.9 A change of engine will automatically result in the driver starting the next race in which the driver takes part from the back of the Grid, except in a case of force majeure, the onus of proof being on the Competitor. In exceptional circumstances the Race Director/Clerk of the Course may waive the penalty if they believe the penalty has already been served.

## **5.5 TURBOS**

5.5.1 A TCR car may use no more than four Turbo units during the TCR UK Championship, without penalty. This supersedes the WSC TCR technical regulations.

5.5.2 A turbo will be considered as having been used once the car has left the pitlane.

5.5.3 Each turbo must be sealed by the Eligibility Scrutineer before being used by the competitor for the first time.

Removal of any seal must be approved beforehand by the Eligibility Scrutineer.

5.5.4 The breaking of any seal without prior approval/authorisation will be considered as a change of turbo and will be penalised, which may go as far as disqualification.

5.5.5 Any additional change of turbo automatically results in the driver starting the next race in which the driver takes part from the back of the Grid, except in a case of force majeure. The onus of proof being on the competitor.

## **5.6 REPLACEMENT CARS**

5.6.1 At each round, the car (identified by its unique chassis number) in which a driver races, must be the same car in which the driver qualified.

5.6.2 No replacement cars are permitted to be used at any individual Event during the Championship.

## **5.7 WEIGHT**

5.7.1 The Minimum Racing Weight is as per the Balance of Performance criteria including the driver, as the car finishes the session. It is defined by the sum of the minimum weight defined by the TCR Technical Regulations and has to be respected at all times during the event. The Minimum Racing Weight can be modified by BOP corrections during the season.

The weight of a car may be checked at any time during the Competition.

5.7.2 Drivers are to be weighed as follows:

- a. Wearing their complete racing apparel, at the first event of the season and at mid-season.

- b. If a driver is entered later in the season, they will be weighed at their first event.
- c. Immediately after the Qualifying Session at each event, at the scrutineering bay or at other point declared by the Organisers.

The weights of the drivers will be entered onto a list under the control of the Championship Eligibility Scrutineer.

5.7.3 During and after Practice/Qualifying sessions:

- a. The Championship Eligibility Scrutineer will select cars to undergo the weighing procedure.
- b. Having been informed that the car has been selected for weighing, the driver must proceed directly to the weighing area with the car, without outside help and may be asked to stop the engine.
- c. The car will then be weighed, with or without the driver, and checked. In the case of an irregularity, the results will be given to the driver or a team representative in writing.
- d. The car must reach the weighing area and return to its paddock area/garage under its own power, with no outside assistance, failing which it will be placed under the exclusive control of the marshals.
- e. The driver and their car may not leave the weighing area without the consent of the Championship Eligibility Scrutineer or their nominee.

5.7.4 After a race:

- a. The Technical Delegate will weigh the classified cars of their choice, except in a case of “force majeure”.
- b. Should the weight of the car be less than that specified in the Technical Regulations the car and the driver may be disqualified from the Competition except when the deficiency in weight results from the accidental loss of a component of the car.
- c. No solid, liquid, gas or other substance or matter of any nature whatsoever may be added to, placed on, or removed from a car after it has been selected for weighing or has finished the race or during the weighing procedure (except by a scrutineer when acting in their official capacity and, after the race, in accordance with the prescriptions of the TCR Technical Regulations).
- d. Only scrutineers, officials and team members on officials’ request may enter the weighing area. No intervention of any kind is allowed unless authorised by such officials.

5.7.5 Any breach of these provisions for the weighing of cars may result in the application of one of the following penalties:

- a. A drop of places on the starting grid for a later race in which the driver takes part.
- b. The cancellation of all or part of the times set in practice or Qualifying.
- c. The disqualification of the car concerned.

d. Any other penalty provided for in these regulations.

## 5.8 BALLAST WEIGHT

A 20kg ballast will be added to the minimum weight of the car of a Competitor entered on Race-by-Race entry at their first appearance in the Championship and must be carried from the scrutineering. This ballast includes the Compensation Weight that shall be defined by TCR Notifications and or Bulletin/s and it's only applicable at the first appearance of a Race-by-Race entry.

## 5.9 BALANCE OF PERFORMANCE AND COMPENSATION WEIGHT AUTOMATIC FORMULA

5.9.1 The balance of Performance (BoP) will be defined by WSC before the start of the season and may be adjusted at any time by the TCR Technical Bulletins. Such communication must be by official bulletin and will form an Appendix to the regulations.

5.9.2 In addition to the BoP, cars are also subject to the TCR Compensation Weight (CW), this will be defined by an Automatic Formula defined by TCR Technical Department (WSC) via TCR Notifications. **A new Compensation Weight (CW) will be in effect for the 2024 season using the total points scored by a driver from a racing weekend instead of Qualifying times as in previous seasons.** All changes to the CW will be communicated by the TCR Technical Department within seven (7) days prior the start of the Competition and ratified by the Officials of the meeting at the latest on the day before the qualifying session.

5.9.3 Any breaches of these rules will be reported to the Clerk of the Course. Penalties may go as far as disqualification from the Competition.

## 5.10 GENERAL TECHNICAL REQUIREMENTS AND EXCEPTIONS

5.10.1 The prescriptions of the current Motorsport UK Yearbook J5 and Q13.1 to Q13.11.5 apply except where modified by these regulations.

Any part damaged through wear or accident can only be replaced by an original part identical to the damaged one.

5.10.2 On the complete car, any nut, bolt, or screw may be replaced by another nut, bolt, or screw, provided that the material, diameter and thread of the original production part is respected unless otherwise allowed under these technical regulations.

5.10.3 Damaged threads can be repaired by screwing on a new thread with the same interior diameter ("helicoil" type).

## 5.11 PERFORMANCE MONITORING AND DATA ACQUISITION

5.11.1 Competitors must use the data acquisition system as specified in the WSC Technical Regulations (Appendix A: 3.6 Data logging).

Exceptions:

- a. A second inlet air temperature sensor will not be required.
- b. A GPS sensor of up to 25Hz may be used.

5.11.2 Competitors are responsible for systems being installed in strict compliance with the relevant instructions and must ensure it is working at all times during all sessions and tests. All costs connected with the installation, checking, servicing and updating of the system are borne entirely by competitors.

5.11.3 Competitors with cars fitted with the TCR combined ECU data logger must provide a TCR USB memory stick for the transfer of data. These items are available from the supplying manufacturer.

Competitors using an EVO 4 will be required to supply an AiM memory stick, part number X50MEPC00, available via Maximum Motorsport.

Competitors using EVO 5 devices will be required to supply two Sandisk 32gb SD cat 10 memory cards (widely available), which should be labelled with the car number and driver name.

Note: if an EVO4 unit should fail, competitors will be required to purchase a new 'Memotec' EVO5 device, as EVO4 equipment is no longer supported for repair or replacement by the manufacturer.

5.11.4 Data may be checked at any time during an Event. It is the responsibility of the competitor to ensure that the device is working and will provide the data required by the Scrutineers. Failure to provide such data for any reason will lead to a Non-Compliance report being issued to the Clerk of the Course and penalties applied.

5.11.5 Championship Organisers reserve the right to request teams to fit additional vehicle data/tracking hardware. Any additional hardware will be supplied by the Championship or its technical partners and will not incur any additional cost to competitors during the 2024 season.

## **5.12 VEHICLE ELIGIBILITY – TCR UK LOGBOOK**

5.12.1 Any car entered into a round of the Championship must have been issued with a TCR UK Logbook in order to be eligible to compete.

5.12.2 All registered contenders must provide a copy of their Motorsport UK/FIA Homologation/ Original Specification Document, a copy of which will remain with and form part of the Championship Logbook.

5.12.3 The intention of the Logbook is to bring an additional level of definition to those cars which are eligible to compete in the Series.

5.12.4 The issuing of a Logbook does not constitute any endorsement of the car's legality under these, WSC or Motorsport UK regulations. Championship Organisers reserve the right to issue Logbooks outside these eligibility guidelines as required.

5.12.5 The Logbook will record details of the car, scrutineering notes, reference pictures taken by or supplied by the Eligibility Scrutineer and will be used to record power test details. All Logbooks will be held by the Championship Co-ordinator and / or Scrutineer. The content of each Logbook will remain confidential and only released to the nominated owner of the car or his/her agent. However, the Championship Organisers will confirm the existence or otherwise of a valid Logbook on request.

5.12.6 The organisers reserve the right to introduce an electronic version of the cars log book.

### 5.13 SAFETY REQUIREMENTS

- 5.13.5 The driver's seat must be an FIA-homologated competition bucket seat (minimum 8855/1999 or 8862/2009 or 8855/2021 standard or newer) with five (5) passages for the safety harness straps. No seat may be used that is over 10 years old from its date of manufacture as stamped on the FIA label.

The use of carbon fibre or aramid construction is authorised.

The seat should be mounted as shown in article 9.1 and 10.1 of the individual vehicle homologation papers. Should an alternative arrangement be required due to the stature of the driver, the mountings must comply with WSC regulations, Article 14.4.

- 5.13.6 A safety harness homologated to FIA standards 8853-98 or 8853-2016 and having a minimum of five (5) anchorage points must be worn at all times when on the circuit. Motorsport UK Regulation Q13.10.2.

In the event of a serious accident belts must be replaced as a matter of course as unseen damage may have occurred.

### 5.14 BODYWORK

#### 5.14.1 Interior

- 5.14.1.1 Interiors must be kept tidy and painted in a single colour.

#### 5.14.2 Exterior

##### 5.14.2.1 Presentation:

The presentation of the car is fundamental to the profile of the series, its sponsors and audience. Therefore, in considering whether to permit any car to race at any point during the season, the Championship Organisers will regard as paramount the car's presentation. Taking its appearance and standard of presentation into account, its presentation (including interior) they may exclude cars considered to prejudice the reputation of the Series or is otherwise unacceptable.

This includes vehicles presented at an event bearing accident damage sustained at a previous meeting and has not been subject to a full and 'proper' repair (e.g: not tank-tape and cable ties). Note: A double/triple header can be regarded as one event for the purposes of this regulation.

The exterior must display all Championship sponsors decals correctly as defined in these regulations. Windscreen headers must remain in the colour supplied by the Championship Organisers for the 2023 season.

5.14.2.2 Only the original apertures in the bodywork may be used for the passage of cooling air. Original apertures are defined as existing apertures in the bodywork that are open or partially or completely covered by removable parts (e.g. fog lamps, blanking panels, louvres, grills, etc.). To allow the passage of cooling air, the removable parts may be removed or opened.

5.14.2.3 Ground clearance:

The minimum ground clearance at all times during the race meeting will be as designated by the BoP. A block of the specified size must be able to pass under all parts of the vehicle without touching, with the vehicle in race trim including the driver. No alterations to the car whatsoever will be permissible prior to the ground clearance check taking place.

The minimum ground clearance of individual cars may be subject to review at any time during the season. Championship Organisers may implement a variation via an official bulletin.

5.14.2.4 All cars must have two external rear-view mirrors, one on the left and one on the right-hand side. Their external shape and location must be that of an original part as fitted on that model, but the internal components may be modified provided that the field of vision is unrestricted.

## 5.15 POWER TESTING

5.15.1 From time-to-time, at the Championship Organiser's discretion, engine power may be measured on a compliant dynamometer operated by qualified rolling road operatives at the designated rolling road using the DIN70020 standard.

The maximum engine power output, measured at the flywheel, will be as WSC BOP figures

5.15.2 The designated rolling road **provider is to be confirmed via an official bulletin throughout the season.**

5.15.3 If the Championship Scrutineer or the rolling road operators are unhappy with the condition of the vehicle, they may decline to test it unless rectification is carried out.

However, they may not be able to foresee every mechanical defect and for this reason power testing will only be carried out at the competitors' own risk.

Neither the Championship Organisers, Officials, Agents or the rolling road operators can or will be held responsible for any failures howsoever caused.

5.15.4 Rolling road cooling fans for all vehicles will be positioned at a maximum distance of 1 meter from the most forward part of the vehicle bodywork.

5.15.5 The organisers reserve the right to nominate an alternative rolling road during the season, this will be communicated via Championship Bulletin.

## 5.16 COMPONENT SEALING

- 5.16.1 Engine and ancillaries may be sealed as required by a Motorsport UK Scrutineer or dyno operator before or after rolling road testing.
- 5.16.2 ECU data may be checked and recorded. A copy of this may be kept by the Championship Data Scrutineer. The ECU will then be sealed. Bolts on the engine and timing cover may be drilled to facilitate sealing.
- 5.16.3 It is the competitor's sole responsibility to ensure that all metal seals, ECU seal and any additional paint seals, are kept in a clean and unbroken condition. (see Motorsport UK Regulation J3.1.6)
- 5.16.4 Where mechanical changes that require Championship seals to be broken, this may only be carried out by the Championship Eligibility Scrutineer and will be resealed prior to the next round.

## 5.17 ECUs

- 5.17.1 All cars must use the original homologated ECU, or a Championship approved system.
- 5.17.2 All competitors using a non-OEM ECU must supply the Technical Data Scrutineer with a copy of the map used at the power test, a copy of the software used and a USB compatible interface lead.
- 5.17.3 ECUs must not be capable of performing any form of traction control unless it is included in the homologated specification. A proprietary Launch Control System may be fitted.
