

**BMW SUPERCUP – 1 SERIES CODING SERVICE**

Burnley based Autograph Tuning offer coding services tailored specifically to the 1 Series cars.

Most aspects can be done remotely if a car can't be made physically available to Autograph Tuning.

A summary of the main aspects and costs is as follows:

<b>BRSCC BMW 1 Series SuperCup Coding Options</b>		
<b>ITEM</b>	<b>APPLICATION METHOD</b>	<b>COST (excl Vat)</b>
Rear Diff Ratio Coding - Manual Cars 2.81 ; 3.08 being the only permitted options	ECU flash via OBD or bench, ECU can be shipped	£200
Removal of rough cold start cat heat cycle and start stop function.	ECU flash via OBD or bench, ECU can be shipped	£150 or £100 if done with above
Rear Diff Ratio Coding - Auto Gearbox Cars.	OBD, can be done remotely if customer has a lead and laptop. Requires Amazon BMW eNet OBD lead (£15)	£100
Removal of safety features / dash lights.	OBD, can be done remotely if customer has a lead and laptop. Requires Amazon BMW eNet OBD lead (£15). Can be things like airbag warnings, driver recognition, seat belts, brake pad warnings etc.	£100 - £300

\*Diff coding on Auto gearbox cars yet to be fully tested on track.

For any bench work, return shipping of ECU's will be charged at £10-£15.

To arrange to have any of the above services carried out, please contact Andrew at Autograph Tuning by email in the first instance at [autographtuning@live.com](mailto:autographtuning@live.com)
